**A LEADER  
IN WELLNESS**

The stress modern life puts on the body adds up; walking on concrete in fashionable but uncomfortable shoes strains the back, as does sitting in an office chair for many hours in an unnatural position... To compensate people exercise, go to the gym, do yoga, etc. Yet, that also taxes the body. To top it all, the pace of modern life, the stress of juggling a career and an active social life can also exhaust the mental and emotional state of a person.

VIBE™ allows you to take a moment for yourself, to recharge and help heal your mind and body. Hydro-thermo massage® helps ease back pain, increases circulation, reduces tension and stress as it helps the body heal and eliminate toxins. Add Illuzio® chromatherapy to change your state to help energize, calm, rebalance and recharge.

Without taking time regularly to disconnect from the world and heal yourself, you have less energy, focus and drive to live your best life.

**A wider bathing well for total relaxation.**
